

Bosch ThermoTechnology full range Central Air-Conditioning System products for residential, commercial, industrial, hospital and transportation buildings.

德國博世熱力技術全系列中央空調系統設備，

高效益節能產品廣泛應用於民用,商用,工業,醫療等建設。

**Commercial Heat Pump,
Water-Sourced**
螺桿水地源熱泵

Climate 5000 GW W

Nominal output range 348~1,830 kW
Water loop or ground water source
For cooling and heating, plus hot water generation. Modulating range/ratio of up to 6.25-100%/ 1:16

**Domestic Heat Pump,
Water-Sourced**
水源熱泵渦旋冷水機組

Climate 5000 WL/ GW/ GL

Nominal output range 8 – 108 kW
For cooling and heating;
plus hot water generation
High efficient scroll type compressor and coaxial heat exchanger

**Domestic Heat Pump,
Air-Sourced**
風冷冷水機組-風冷模塊

Climate 5000 AS

Nominal output range 33 ~ 135 kW
Modular design, up to 16 units one system max. output 1,072 kW
For cooling and heating;
or heating plus hot water generation

**Commercial Chiller
Water-Sourced**
水冷螺桿冷水機組

Climate 7000 GW W

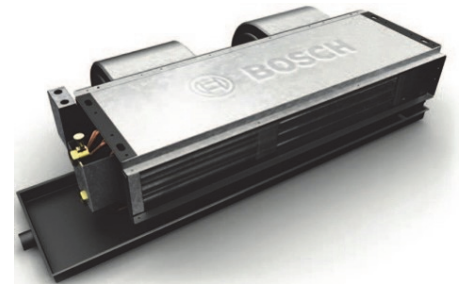

Nominal output range 505~1,800 kW
High efficiency with EER >6.3
Double-screw design, semi-hermetic scroll type compressor with high precision electronic expansion valve for wide throttling

Modular Air Handling Unit
組合式空氣處理機組

Climate 5000 MAHU

Nominal air flow range 2,300 ~ 100,000 m³/h
Total cooling rate 34 ~ 1,306 kW
Heating rate 22~926 kW,
70°C supply
Unit selection software with rigorous calculation and comprehensive report

Fan Coil Uni
風機盤管(交流/直流無刷)

Climate 5000 FC

Air flow range 360 ~ 2,450 m³/h
Total cooling rate 2,230 ~ 13,180 W
Total heating rate 3,600 ~ 20,190 W
AC Motor, or brushless DC Motor
Noise level 28dB(A) for DC Motor,
37db(A) for AC Motor.
Multi-step or Stepless operation (DC)

EcoAmigo provides Full Professional Services for Energy Saving Solutions

我們提供全面環保節能系統設備之專業顧問設計及供應及調試服務
